FOREWORD

An often heard cry in modern management speaks to the burden of "paperwork." It is enormous, but accurate data is an essential tool if prudent decisions, evaluations and planning activities are to occur.

This report is offered to provide guidance to policymakers in developing responses to the challenge of universal education for handicapped children. It presents in concise form the basic information needed for measuring progress, analyzing the need for change, and developing comparative studies.

The Department of Education is grateful to local school districts and cooperating agencies for their contributions in serving handicapped children. We look forward to their continuing dedication in helping handicapped children to reach their potential.

Robert S. Black, Director
Office of Programs for the Handicapped

INCIDENCE OF HANDICAPPING CONDITIONS IN SOUTH CAROLINA

The Office of Programs for the Handicapped has formulated state incidence percentages for use in establishing estimates of the number of handicapped children in South Carolina.

These percentages are basically in keeping with incidence levels derived from the Bureau of Education for the Handicapped, U. S. Office of Education (1970). However, national conditions are not always characteristic of individual states. For this reason, demographic factors have been considered in determining the incidence figures reflected in "A Five-Year Plan to Provide Appropriate Educational Programs for South Carolina Students with Handicapping Conditions."

The total incidence percentage of handicapping conditions for the State is 15.595 percent. If a district exceeds the incidence for any of the handicapping conditions, the administration must be prepared to present documentation and explanation of the discrepancy.

Incidence Percentages by Types of Handicapping Condition

Educable Mentally Handicapped (EMH)	5.00
Trainable Mentally Handicapped (TMH)	.30
Emotionally Handicapped (EH)	3.00
Learning Disabilities (LD)	1.00
Hearing Handicapped (HH)	.70
Visually Handicapped (VH)	.09
Orthopedically Handicapped (OH)	.50
Speech Handicapped (SH)	5.00
Deaf-Blind (DB)	.005
Total Incidence	15.595

EDUCATION OF THE HANDICAPPED, PART B

Public Law 94-142 monies were awarded to all ninety-two (92) local education agencies (LEAs) during the school year 1978 - 79. These funds were awarded on an entitlement basis determined by the average of the October 1, 1977 and February 1, 1978 child counts. South Carolina was awarded a total of $10,768,402.00 in P. L. 94-142 funds. Of this total, 75% ($8,076,301.50) was distributed to LEAs. A $121.46 per child allocation was determined by dividing the 75% flow-through amount by the total average child count (66,490.5). This per child allocation was then multiplied times the average child count for each LEA to determine LEA entitlement amounts. A reallocation of $1,000,000.00 was made in February, 1979 producing an additional $15.03 per child allocation. The FY '79 funds have a one-year carry-over provision and must be expended by June 30, 1980.

Listed below are the average counts and amounts awarded to the LEAs:

EDUCATION OF THE HANDICAPPED ACT, PART B
PRESCHOOL INCENTIVE GRANT

Preschool Incentive Grant funds were awarded on an entitlement/contract basis to 59 LEAs and 17 programs/other agencies for the purpose of providing special education and related services to five-year old handicapped children. South Carolina was awarded a total of $365,378.00 in Preschool Incentive funds. A $74.79 per child allocation was determined by dividing the total state amount by the total average count for ages 3 - 5 (4,885). This per child allocation was then multiplied times the average child count (ages 3 - 5) for each LEA/other program to determine entitlement/contract amounts. Relinquished funds were reallocated to LEAs/other agencies indicating an intent to apply for funds. This reallocation produced an additional $16.52 per child amount.

Listed below are the average counts and amounts awarded:

EDUCATION OF THE HANDICAPPED ACT, PART B
RETAINED FUNDS

During FY '79, five state operated programs were awarded contracts for Direct Service Delivery to serve school-age handicapped children. The amount available to each program was determined by the average child count (October 1, 1977 and February 1, 1978) times the total of the initial amount generated per pupil under flow-through dollars and the first reallocation per pupil amount. ($136.49) These funds have a one-year carry-over provision and must be expended by June 30, 1980.

Listed below are the average counts and amounts available to State Operated Programs:

Program	Count	Amount
Department of Corrections	4	$14,797
Department of Mental Health	142.5	19,450
Department of Mental Retardation	595	81,212
Department of Youth Services	382	52,139
Greenville-Pickens Head Start	4	546
TOTAL	1,127.5	$87,478

EVALUATION, DIAGNOSIS AND PRESCRIPTIVE PROGRAM

The State Department of Education, Office of Programs for the Handicapped, has set aside a small portion of the Department's Part "B" funds in order to provide diagnostic evaluations and educational prescriptions for handicapped children exhibiting complex and unusual handicapping conditions. These educational diagnostic evaluations are available through the "Evaluation, Diagnosis and Prescriptive Program" (EDPP) and cannot supplant diagnostic/prescriptive services which are traditionally the responsibility of local agencies.

Children with handicaps which require extensive diagnostic evaluation and individualized instruction may be referred for professional diagnostic/prescriptive services. The diagnostic and prescriptive profiles are designed to enable local education agencies to serve children who, in the past, have received an inadequate education due to the nature of their physical or mental problems.

Diagnostic centers operative during the 1978 - 79 school year are listed in the chart below with the number of children receiving services.

Diagnostic Center	Number of Children Receiving Services
Charles Lea Center Spartanburg, SC	2
Clemson University Clemson, SC	1
College of Charleston Diagnostic Center Charleston, SC	32

TITLE IV, PART C GRANTS

Congress specifies that 15 percent of the funds appropriated under Title IV-C must be utilized for improvement in local educational practices related to education of children with handicapping conditions. This is a major source of support for projects designed to bridge the gap between research findings and everyday classroom activities.

Funds allocated to the State Department of Education under the Title IV-C program in the amount of $270,402 are administered by the Office of Federal Programs and will be disbursed to districts for the projects listed below during the 1979 - 80 school year.
